TRIBUTUM

PACKAGE GUIDE

Brazil Regulatory Route

For cosmetics, food, pet food, medical devices, machinery, telecom, agribusiness and chemicals.

Before shipping a regulated product, you need to know which agency decides, which documents it requires and who answers for the product in Brazil. We deliver that roadmap in writing.

OUTCOME
Regulatory path

SEPARATE
Filing and official fees

01 What the package solves

In Brazil, each regulated product has an agency, a regime and a local holder. Getting any of the three wrong stalls the import or the sale.

Regulatory Route identifies the right path for your product, with requirements, labeling and responsible parties, before any filing. The filing itself and the technical responsibility stay with licensed professionals, engaged separately.

02 How it works, step by step

01 **Product and manufacturer data** CLIENT
You send specifications, composition, manufacturer details and the documents available.

02 **Screening for the competent agency** TRIBUTUM
We identify the agency and the regime that apply to the product and its risk class.

03 **Documents, classification and local holder** TRIBUTUM
We list the documents, classification, labeling and the local holder required.

04 **Regulatory path** TRIBUTUM DELIVERABLE
We deliver the roadmap for registration, notification or certification, with requirements and responsible parties identified.

05 **Filing and execution** LICENSED PROFESSIONAL ENGAGED SEPARATELY
Filing acts and technical responsibility stay with licensed professionals, engaged separately.

03 What you receive

- The competent agency and the regime that applies to the product
- Risk class and classification
- The list of required documents and what is already in place
- Portuguese labeling requirements
- Who can act as the local holder and what that involves
- Roadmap for registration, notification or certification, with the order of steps

> Holding a registration in Brazil involves documentation, import, regulatory upkeep, post-market duties and ongoing responsibilities. Feasibility is assessed by product, risk class, manufacturer, importer and agency. We do not promise approval, timelines or automatic transfer of a registration.

04 What is separate

- Filing, follow-up with the agency and technical responsibility (licensed professionals)
- Official agency fees
- Laboratory testing and certifications
- Sworn translation of documents, when required

05 Before you start, have at hand

- Product specifications and composition
- Manufacturer and plant details
- Registrations and certifications in other countries
- Current labeling and instructions for use

06 Pairs well with

Combo 3 · Register

Regulatory Route with the Registration and licensing service: from the route to a coordinated filing, for less than buying them separately.

Brazil Product Pilot

With the regulatory path settled, the pilot tests sales with controlled inventory.

07 Our commitments

- Published prices and a written scope before we start.
- Consulting kept separate from operations and third-party costs.
- No promise of approval, sales, licenses or distribution.
- An exit route defined before any pilot.
- Freedom to bring the operation in-house, with no exit fee.
- The importer, the regulatory holder and the party responsible for each obligation are identified.
- Due diligence on clients and partners, with anti-money-laundering controls.
- Data protection and confidentiality.

How to hire

1. Click “Hire” on the Brazil Soft Landing page, or reach us through the contact form.
2. We talk about your product, the market and where your company stands.
3. You receive a written proposal with scope, milestones, timelines, fees and the party responsible for each obligation.
4. Once you accept, you deposit the first milestone on Escrow.com, which holds the payment in escrow.
5. We deliver the milestone; payment is released after delivery and the inspection period. And so on, milestone by milestone.

The fees for each package, service and combo are in the price list on the page and are confirmed in the proposal.

This guide describes the service and does not replace the proposal: scope, timelines, fees and responsibilities are as agreed in writing. Government agency timelines do not depend on Tributum. Technical and regulated professional acts are performed by licensed professionals, engaged separately. Where legal representation is required, clients engage independent counsel of their choice directly.
